

*Danner et al.*  
*Serial No. 10/604,630*  
*Preliminary Amendment of June 15, 2005*  
*Page 4*

## REMARKS

The amendment in Paragraph [0005] simply inserts a publication number for an application originally identified only by serial number.

The amendment in Paragraph [0007] is a correction of a clerical error, the need for which is apparent from Office and similar records. The list of patents and applications in this Paragraph is stated to be of E Ink and MIT patents relating to electrophoretic displays. U.S. Patent No. 6,249,721 is not assigned to either E Ink or MIT and does not relate to this technology. Hence, correction is obviously required, and Office records show that the correct Patent No. 6,249,271 must be intended.

Respectfully submitted
